The following action is in response to the request for reconsideration received September 28, 2007.

Allowable Subject Matter

Claims 13-24 are allowed. Claims 13-24 will be renumbered for printing as claims 1-12, respectively.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a clutch assembly as defined in claim 13, particularly including a clutch lining having a springiness, a lever plate supported at a peripheral region, a clutch actuator having a linear compensating spring and exerting an actuating force on the release bearing, the actuating force being amplified by a force of the linear compensating spring, wherein a spring force acts on the lever plate in a direction of the force of the springiness of the lining, the spring force being within an order of magnitude of the force of the linear compensating spring.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

After reconsideration in view of applicant's arguments filed September 28, 2007, it is agreed that the disclosure provides sufficient support for the subject matter of claims 13-24. Accordingly, the rejection the claims under 35 USC 112, 1st paragraph, in the previous Office action is withdrawn.
